ESTIEM Values

EMBRACING DIVERSITY

We see multiculturalism as a strength of ESTIEM. We benefit from our cultural diversity by being able to approach chances and challenges with different insights. Respect is not just something we strive for, but part of the very basis of our network

ENCOURAGING PARTICIPATION

ESTIEM being a democratic organisation with a flat hierarchy encourages the participation of all its members. We inspire each other to partake in ESTIEM's activities and develop new ideas

STRIVING FOR GROWTH

We grow together by trying hard and learning from mistakes, we are eager to go through a learning process and see accessibility and freedom as highest goals. ESTIEMers gain practical experience and important soft-skills needed in today's world

AIMING HIGH

We are not afraid of stepping out of our comfort zone. ESTIEM's members are proactive students that always give 100%. We encourage an entrepreneurial spirit among students and other stakeholders by gathering and exchanging experiences and best practices
